

Woodpeak[®]
LIVING GREEN FLOORS

100% Made in Spain

2. **ECONOMICAL.** Woodpeak prices offer authentic **REAL WOOD** at comparable quality laminate products.

3. **DURABILITY.** Constructed on **HDF (High Density Fibreboard)** substructure using **SSI (Super Strong Impregnation)** system. This process offers a superior abrasion and impact resistance than typical wood flooring. During the pressing process the adhesive is pressed together into the wood until the saturation level is achieved. The wood fibers absorb the lacquers making contact with the adhesive and ultimately offers a superior hardened surface seal of Micro **"Corindon Particles"**.

1. **"GREEN"** Woodpeak collection uses sustainable products. **ECO** Raw materials are optimised by using a thin top layer (0,6mm) of authentic wood species. In addition, we use water base stains and glues without any **VOCs**.

4. **HYGIENIC.** Antibacterial.

Woodpeak[®]
LIVING GREEN FLOORS

7. **STABILITY.** Perfectly calibrated floorboards. All Woodpeak products use a finishing coat of varnish under the substructure for extra stability and added fire resistance.

5. **LOCKSTP.** A truly unique interlocking system. The worldwide patent **LOCKSTP** perfectly bonds STP products together without using adhesive.

6. **AUTHENTIC WOOD** species make every Woodpeak floors truly unique: Lightly wire **brushed** finish highlights the natural essence of the wood fibers.

SYSTEM

LOCKSTP[®]
EXCELLENT GLUELESS SYSTEM

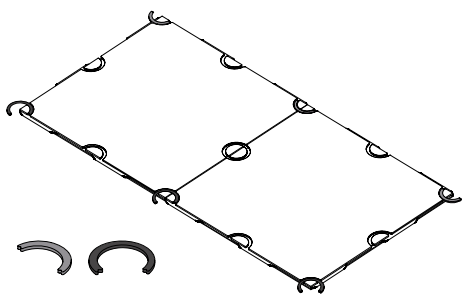

Glueless System
Patent-protected worldwide

LockSTP is an innovative glueless flooring system which provides a precision interlocking bond between formats every time.

LockSTP es un innovador sistema de colocación en seco. Gracias a sus anclajes y a la precisión de su mecanizado se garantiza una unión perfecta sin necesidad de cola.

LockSTP è l'innovativo sistema di posa flottante che con i suoi particolari giunti e precisi incastri assicura una perfetta resistenza e tenuta senza l'impiego di colla.

Lock STP est un système innovant d'assemblage sans colle. Grâce à ses crochets et à sa précision d'usinage un assemblage parfait sans collage est garanti.

Union rings for joint pieces.

Covering hooks, for glueless wall applications.

STP reserves the right to withdraw, change, amend, modify the colors, species, dimensions, specifications, products, policies or procedures described in this catalogue.

FORMATS

* UPON REQUEST, FORMATS ARE ALSO AVAILABLE WITH TRANSVERSAL GRAIN

** HERRINGBONE ENGINEERING AVAILABLE UPON REQUEST

STRUCTURE

FINISH. 12 coats of High Traffic varnish. Brushed open pore grain highlights the natural essence of the wood.

TOP LAYER. 0,6 mm NOBLE WOOD, micro-bevelled.

CORE. 9 mm HDF (High-Density Fibreboard, with density >900kg/m³)

SUBSTRUCTURE. Contra-balance 0,6 mm Wood veneer with a finishing coat of varnish for extra stability and fire resistance.

100% Made in Spain
